To Address the Board: Members of the public may address the Board on any agenda item. Pursuant to the Brown Act (Govt. Code section 54950, et seq.) Board action or discussion cannot be taken on non-agenda matters but the board may briefly respond to statements or questions. You may submit your public comment via email to cmadison@teachinc.org that will be read into the record.

1. **Call to Order/Quorum Established/Introductions**

2. **Public Comments (limited to 3 mins. per comment)**

3. **Action Items**

I. **Action: Approve December 4, 2025 Special PIT Committee Meeting draft minutes (Exhibit A)**

PIT Planning
Today's meeting will continue to work with Simtech Solutions on revising the 2026 PIT Surveys.

4. **Discussion**

I. **Review Unsheltered and Sheltered Surveys.** Committee members work with Simtech Solutions to consider survey questions, revisions

II. **Simtech Solutions identified key action items that need to be focused on.**

   1) The Volunteer Registration Portal is live at https://norcal.pointintime.info/. We still need jurisdictional leads to register for the count.
   2) See recruiting materials to share with the understanding that people may want to tailor these to meet local needs or create their own.
   3) Regional count admin(s) need to be chosen and given access to the command center. We are in the process of creating a roles and responsibilities for Regional Count Admins document to share.
   4) Outreach teams and others should be identifying known locations.

IV. **HIC County Responsibilities.**

   Volunteer Leads and alternates for each County will oversee the PIT Sheltered Count and HIC process. Identify organizations and projects in the NorCal CoC that need to be included in the 2026 HIC, assist with follow-up if needed.
   Provide Seth and Daniel ASAP with the names of programs for "all homeless-dedicated beds and programs operating by organizations in your county that are missing from the 2025 HIC List of Projects, **regardless of funding source and including those not currently participating in HMIS.** These would be programs **that are not included in the 2025 HIC** that meet the attached criteria, "Project Type Reference Sheet"

   Seth will attempt to reach out to all providers by December 12, 2025 to allow time to follow-up with those who were only left voicemails or have not yet responded prior to the January 9, 2026 deadline. Once the data is gathered, Pathways will be updating the data in HMIS and it will be used to update the HIC in HDX for the HUD submission

1. Call to Order/Quorum Established/Introductions - 2:02. Members present: Maddelyn Bryan, Nicole Lamica, Rebecca Green, Kristen Quade, Emilly Clark, Marci Kennedy representing Shasta County.
Attendees: Jamie Northrup, Kristen Schreder, Dawn Pittore, William Matson, Sarah Evans, Kevin C., Connor Stevens, Derek Smith, Nikki Kates.

The group confirmed a quorum for the meeting and noted updates to advisory board membership, with Maddelyn reporting her transition to a full member and Steve Bryan as her alternate.

2. Public Comments (limited to 3 mins. per comment) - No public comment.

3. Action Items

I. Action: Approve November 18, 2025 PIT Committee Meeting draft minutes (Exhibit A) - Motion to approve by Kristen Quade, Second by Emilly Clark. All in favor, none opposed. Motion passed.

PIT Planning
Today's meeting will primarily include working with Simtech Solutions on revising the PIT Surveys to use for 2026.

4. Discussion

I. Review Unsheltered and Sheltered Surveys. Committee members work with Simtech Solutions to consider survey questions, revisions

Exhibit B. 2025 Surveys (previously provided)

The meeting focused on reviewing and improving a survey system, with Maddelyn and Kristen highlighting issues with the current structure, particularly for households with multiple members. Kevin, representing SimTech, acknowledged these concerns and agreed to discuss potential solutions with his team, including the possibility of restructuring the survey flow to improve efficiency and user experience. The group also discussed the need for better alignment between paper surveys and the digital system, with Maddelyn emphasizing the importance of allowing surveyors to submit partial surveys when individuals leave before completing the entire process.

The group discussed survey language for the point-in-time count, focusing on how to phrase questions about previous interviews and sleeping arrangements. They agreed to ask about sleeping arrangements on the night of January 26th, with Emily confirming the phrasing. The committee also discussed concerns about how to ask the gender question, with Kristen noting they want to keep both sex and gender questions while Kevin explained data collection requirements. The group decided to leave the sex question as is for now but agreed to ask for initials instead of names to maintain anonymity, with Rebecca and Dawn supporting this approach.

The team discussed survey design, focusing on name collection and deduplication strategies. They agreed to make name collection optional but clearly labeled, with initials as an alternative, to balance privacy concerns and data quality. Kevin explained that sheltered and unsheltered surveys would be separate, and Kristen outlined plans to coordinate shelter surveys with Pathways and member COC advisory boards. The team also reviewed questions about vehicle and makeshift shelter types, deciding these were not relevant for their purposes.

The group discussed modifications to a survey app for sheltered and unsheltered individuals. Maddelyn suggested adding a question about where people slept to determine which survey to use, but Kevin explained this wasn't possible this year. They agreed to keep the current survey structure but modify the note for volunteers when a sheltered survey is needed. The group decided to leave certain questions about RV conditions in the survey for now, with plans to revisit if the survey

becomes too lengthy. They also discussed the possibility of color-coding responses in the template, but Kevin clarified that this wasn't feasible in the app. Finally, Kristen suggested editing the survey and then sending it back to the group for review and potential reordering of questions.

The team discussed survey questions, focusing on simplifying and clarifying certain sections. They agreed to remove a question about vehicle occupancy as it wasn't relevant. For age-related questions, they decided to keep only one question asking for age, which would automatically calculate the age range. The group also discussed homelessness history questions, particularly how to phrase questions about length of time in the community. They considered using specific time ranges to better capture data and allow for comparison over time.

The group discussed edits to a survey about homelessness, focusing on removing a question about previous addresses and adding a new question about age of first homelessness experience. Kevin agreed to make these changes and send updated versions of both sheltered and unsheltered surveys. The team also discussed the need to get more people signed up for the volunteer portal, currently at 5 participants. Kristen committed to following up with county leads and sending out survey revisions for review.

The group discussed how to phrase questions about substance use disorder in a homelessness survey, focusing on whether to ask about current use versus past diagnosis. Kevin explained that HUD primarily cares about long-term impairments, suggesting a single question about substance use that affects ability to live independently. The group agreed to keep the current question wording for now and add a separate question about juvenile justice placement, while keeping the existing foster care question. They also decided to maintain a question about disability benefits to identify gaps in benefit access for people with disabilities.

The team discussed updates to a homelessness survey, focusing on improving questions about reasons for homelessness to capture more nuanced data. Kevin agreed to revise the survey draft by Monday, incorporating previous survey data and community-specific considerations. The group also addressed logistical challenges around survey timing and outreach coordination, with Nicole highlighting the need to finalize exact dates to avoid conflicts with planned events. Kristen committed to following up with Kevin and Simtech on the exact survey launch date and duration, while also planning to email a summary of the meeting's outcomes and next steps to the team.

II. County Specific Data Collection. Review 2025 PIT Report Homeless Census & Survey 2025 Executive Summary to consider which questions to include in PIT survey and report data by County. **Exhibit C 2025 PIT Report Homeless Census & Survey 2025 Executive Summary (2 pp.)**

III. Simtech Solutions identified key action items that need to be focused on.

1) The Volunteer Registration Portal is live at https://norcal.pointintime.info/. We still need jurisdictional leads to register for the count. As of today, we only have four people signed up.
2) The geographic coverage areas for each county need to be defined. Kevin (CCd) is working on that now. Currently only Shasta has been defined (See below).
3) We have recruiting materials to share with the understanding that people may want to tailor these to meet local needs or create their own.
4) Regional count admin(s) need to be chosen and given access to the command center. We are in the process of creating a roles and responsibilities for Regional Count Admins document to share.
5) Outreach teams and others should be identifying known locations.

All supporting materials are being posted to https://pointintime.info/volunteer/norcal-point-in-time-count/norcal jurisdictional-leads/. We will review this site together and continue to add to it.

5. HIC Planning

A smaller portion of time during the meeting today will be used to discuss the HIC Planning. See Exhibit E which provides details about the County HIC Lead responsibilities and work with Pathways.

I. HIC County Responsibilities.

Volunteer Leads and alternates for each County will oversee the PIT Sheltered Count and HIC process. Identify organizations and projects in the NorCal CoC that need to be included in the 2026 HIC, assist with follow-up if needed.

Provide Seth and Daniel by **December 9, 2025,** with the names of programs for "all homeless-dedicated beds and programs operating by organizations in your county that are missing from the 2025 HIC List of Projects, **regardless of funding source and including those not currently participating in HMIS.** These would be programs **that are not included in the 2025 HIC** that meet the attached criteria, "Project Type

Reference Sheet"

Seth will attempt to reach out to all providers by December 12, 2025 to allow time to follow-up with those who were only left voicemails or have not yet responded prior to the January 9, 2026 deadline. Once the data is gathered, Pathways will be updating the data in HMIS and it will be used to update the HIC in HDX for the HUD submission

7. Adjournment

Approved meeting schedule:
Regular and Special PIT Committee Meeting Schedule
Tue. December 16, 9-10,
Tue. January 6, 9-10
Tue. January 20, 9-10

This Survey Template is designed to mirror the base "Unsheltered Survey" within the Counting Us app. The questions are color coded as noted below.

RED FONT = HUD required questions that are needed in order to produce the HUD Point in Time report.

GREEN FONT = Optional questions used to derive a multiplier for communities that chose the option to include the Vehicle and Makeshift Shelters survey in contract section 2.5.

BLUE FONT = This question is required for communities that chose to include the Miracle Messages Family Reunification survey in contract section 2.10.

PURPLE FONT = These are commonly asked research questions that can be removed without impacting any reporting or conditional logic.

BLACK FONT = Supporting questions designed to help improve the integrity of the data.

YELLOW FONT = Community custom questions.

UNSHELTERED POINT-IN-TIME COUNT
JURISDICTIONAL LEAD RESPONSIBILITIES

PRE-COUNT Activities Shaded in Light Blue

PRE-COUNT & COUNT Day Activities Shaded in Light Green

COUNT DAY Activities Shaded in Yellow

POST COUNT Activities Shaded in Gray

Responsibility	Phase	Dates	Status & Notes

1. Support the identification of areas where people experiencing homelessness are commonly found.
   a. Recruit various local experts, including outreach staff, service providers, law enforcement, etc., and encourage them to register for an account using the Volunteer Registration portal.
   b. During the planning stage of the count, community participants may submit Known Location Surveys to identify the locations where Persons Experiencing Homelessness (PEH) are known to be residing. A short video with details on how to identify known locations using Counting Us can be found here.
   c. Take inventory of your local Outreach Teams and share with them this guidance on how to identify known locations.
	PRE-COUNT	11/18 – 12/31	In Progress

2. Participate in volunteer recruitment. a. To facilitate this critical aspect of a successful count, Simtech offers packages for support with marketing the PIT and recruiting volunteers. Volunteers can notify of their intent to participate via the Volunteer Registration Portal which is customizable to local branding and community needs. Volunteers create a profile in which they provide their contact information and their volunteering capacity. Volunteers can specify details such as emergency contacts and safety information, areas they are available to	PRE-COUNT	11/16/25 – 1/16/26	Not yet started, but volunteer recruitment materials have already been created.

canvas, and special accommodations they may need to participate. The volunteer registration portal automatically registers the volunteer with an account for Counting Us, in which the local count leaders can further assign roles and responsibilities.			
3. Plan survey coverage and assign count teams to coverage areas. a. Within the Regional Command Center, Regional PIT Count Leads can create Count Teams and areas within their designated Regions that have been established by the CoC Count Admin. Additional information about this functionality can be found [here](#).	PRE-COUNT	11/15 – 1/15/26	Will occur after Jurisdictional Leads and County have confirmed the Regions from 2024

4. Train volunteers to conduct surveys and provide guidance for the count…
Jurisdictional leads should be prepared to answer the questions outlined below that surveyors may have. Training supports include "train-the-trainer" webinars, a [video training series](#), [support page](#), [FAQs](#), and a [virtual help desk.](#)
    a. When is the count?
    b. How do I sign up for the count and select where I am willing to count?
    c. How do I use the app?
    d. Who is my Regional Count administrator?
    e. How do I contact my Regional Count administrator?
    f. Who is my Count Team leader?
    g. Where do I go?
    h. Who am I meeting with?
    i. How do I get help?
    j. What do I do when I am done canvassing my area?
    k. How much time should I reserve for participating in the count?
	PRE-COUNT	11/1/25 – 1/16/26	Simtech in collaboration with View Consulting will provide Surveyor training. Jurisdictional Leads will receive a separate training so they can provide level 1 assistance to their count teams.
			
			[Meeting Link will be inserted here once it's prepared]

5. Logistics & Supplies Management a. The leader manages logistics, or recruit assistance for someone else to take on this role, to gather and distribute supplies. Supplies may include "getting started" flyers to walk through the usage of the app, print-friendly coverage maps, care kits, and gift cards.	PRE-COUNT	Date TBD	Ongoing

b. Collaborate with local organizations and for-profits to solicit items for the care kits. c. Arrange for transportation, if needed, for volunteers to cover designated areas. d. Establish communication channels among volunteers and teams with the aid of the tools found within the Command Center.			
6. Ensure volunteers have mobile app downloaded and correctly configured.	PRE-COUNT AND COUNT DAY	1/9/26 – 1/16/26	Will be covered in both the Jurisdictional Lead Training Meetings AND in the Surveyor Trainings
7. Provide support to volunteers during canvasing hours. a. Ensure Team Leads and Surveyors have contact information in case there are any unexpected questions while canvasing occurs.	COUNT DAY	Date TBD	
8. Monitor count results in real-time for integrity a. During the Count, Administrators and Regional Administrators oversee the process of verifying the integrity of incoming survey data to minimize errors and ensure accuracy. Quality control measures are implemented to identify and rectify inconsistencies.	COUNT DAY	Date TBD	Will be covered in Jurisdictional Lead Trainings
9. Assist in post-count data clean-up efforts, including outreach to surveyors.	POST COUNT	2/6/26 – 4/17/26	Will be covered in Jurisdictional Lead Trainings

2026 HIC Planning Update.

Thank you for your interest in assisting with the 2026 Housing Inventory Count (HIC)
The approved PIT Count date is Monday, January 26 and January 27, 2026 was approved as "Day of Count"

The following is an overview of the process for completing the 2026 HIC

A. Review 2025 HIC and add programs not included in the 2025 HIC

1. Review the attached 2025 HIC to see if the agency you represent is accurately represented.
2. Please respond to the request sent by Seth and Daniel to identify "all homeless-dedicated beds and programs your organization operates, **regardless of funding source and including those not currently participating in HMIS.**
3. Complete the form they provided at your earliest convenience. Final submittal is due January 9, 2026.
4. Provide Seth and Daniel by **ASAP,** with the names of programs for "all homeless-dedicated beds and programs operating by organizations in your county, **regardless of funding source and including those not currently participating in HMIS.** These would be programs **that are not included in the 2025 HIC** that meet the attached criteria, "Project Type Reference Sheet".
   a. Provide to Seth and Daniel, for all homeless-dedicated beds, the following:
      i. Name of Program
      ii. Contact name
      iii. Email
      iv. phone number
      v. Indicate which county it is located.
5. Seth will attempt to reach out to all providers by December 12, 2025 to allow time to follow-up with those who were only left voicemails or have not yet responded prior to the January 9, 2026 deadline. Once the data is gathered, Pathways will be updating the data in HMIS and it will be used to update the HIC in HDX for the HUD submission.

B. 2026 Sheltered PIT Survey Count

Please see the attached list of the projects that that can be used for the Sheltered Point in Time Count.

We are in need of compiling a list of the programs that will require the **administration of a Sheltered Survey** that meet the definition of the following:
1. Emergency Shelter
2. Transitional Housing
3. Safe Haven

Please review the list and provide any needed corrections or revisions and identify any additional homeless-dedicated beds which will require a Sheltered Survey
>   For programs that need to be added please provide the following to Kristen at kristen@kristenschreder.com by ASAP and copy Seth and Daniel
>   i. Name of Program
>   ii. Contact name
>   iii. Email
>   iv. phone number
>   v. Indicate which county it is located.

C. Criteria for counting sober living or recovery beds in the HIC

Most sober living or recovery beds *are not* counted in the HUD Housing Inventory Count (HIC).
Below is the breakdown to apply in CoC/HMIS/HIC work:
When recovery or sober living beds *are* included in the HIC
They are only counted if they meet the definition of a **homeless-dedicated project** under one of the HIC categories:
1. Transitional Housing (TH)
   A recovery/sober living program can be counted as TH **if all of these are true**:
   - Beds are **reserved for people who are literally homeless**, and
   - The project **is in HMIS or required to be**, and
   - The program is **funded or recognized** as part of the homeless response system (CoC, ESG, or comparable commitment), and
   - The stay is **time-limited** with services designed to move people to permanent housing.
Examples:
   - A county-funded Recovery Housing initiative meeting HUD's TH definitions.
   - A CoC-funded TH-RRH Joint Component project that uses TH beds for stabilization.
2. Emergency Shelter (ES) (rare)
   If a recovery site is designated and operated *as emergency shelter* for people who are literally homeless, it can be counted. This is **rare** for sober living.
3. Permanent Housing (PH)
   Again very rare — only if the recovery residence is a bona fide PSH or other permanent housing project dedicated to formerly homeless residents with documentation, services, leases, etc.
When recovery or sober living beds are *not* included in the HIC
HUD instructs CoCs **not** to include recovery residences or sober living homes when they operate as any of the following:
1. General recovery beds not reserved for the homeless system
   - Accept referrals from anyone (probation, self-referral, courts, etc.)
   - Do not require participants to meet HUD's "literally homeless" definition
   - Are not governed by HUD homeless program standards or HMIS participation rules
2. Oxford House–type models
   - Democratic resident-managed housing
   - Typically not targeted exclusively to homeless individuals
   - Not considered homeless-dedicated projects
3. State AB 109, probation, parole, or drug court placements
   Unless the project is formally enrolled as TH/ES within the CoC and meets all HUD criteria, these are **excluded**.
4. Recovery "treatment" beds
   HIC does not count:
   - Detox
   - Residential treatment
   - Licensed treatment centers
   - Medical/clinical programs
   - Recovery programs funded as behavioral health beds
   These fall under *treatment*, not *housing*.
Practical rule of thumb used by many CoCs
If the beds couldn't be claimed in a CoC Program application as TH/ES/PH homeless-dedicated beds, then they should not appear in the HIC.
If they want to be counted, they must:
   - Serve only people who meet HUD homeless eligibility,
   - Participate in HMIS (or a comparable DB for DV providers),
   - Have a housing component that meets HUD project type definitions

Project Type Reference Sheet

Project Type	Definition
Emergency Shelter (ES)	A facility that offers temporary shelter to people experiencing homelessness without requiring leases or occupancy agreements; some supportive services may be available.
Transitional Housing (TH)	Temporary housing for program participants with signed leases or occupancy agreements, intended to transition individuals to permanent housing within 24 months, unless a longer period is approved by HUD.
Safe Haven (SH)	Specialized, low demand housing for people with severe mental illness who have been unable or unwilling to participate in traditional housing or supportive services. These projects must be open 24 hours a day.
Rapid Re-Housing (RRH)	Permanent housing projects that provide short- or medium-term rental assistance and supportive services (up to 24 months). Participants must hold a lease.
Permanent Supportive Housing (PSH)	These projects provide long-term leasing or rental assistance and voluntary supportive services for households with at least one member who has a disability and meets HUD's definition of chronic homelessness.
Other Permanent Housing (OPH)	Long-term housing for people who are experiencing homelessness. This housing does not have disability requirements and may or may not include services.

The definitions above are based on federal regulations, and on guidance published on hudexchange.info.
- o All Project Types above are included in the annual Housing Inventory.
- o HUD classifies Emergency Shelter, Transitional Housing, and Safe Haven facilities as shelters, so they are included in the homeless Point in Time count.
