2026 PIT and HIC Update.

January 26, 2026 is approved PIT count date (“night of”) January 27, 2026 approved for Day of Count.

A. HIC Lists.

Pathways MISI has worked with the NorCal CoC to account for all homeless-dedicated beds and programs operated by organizations that need to be included in the 2026 HIC regardless of funding source and including those not currently participating in HMIS.

We are in need of each agency to review the attached spreadsheet and identify information that needs to be updated or provide missing information to Pathways to complete the 2026 HIC.

If there have been any changes or you need to add information, please provide updated information to Seth Maneja at Pathways MISI smaneja@pathwaysmisi.org by February 20, 2026.

In particular please confirm that the following details remain accurate for your program:

1. Update and verify the bed inventory

Total Number of Beds and Units available on the night of your community's PIT Count

- Beds for households with adults and children, beds for adults with no children, and beds for households with only children.

2. Funding Sources

- Name of Funding Source 1, Name of Funding Source 2, etc.

3. Sheltered PIT Count

A. Number of People in beds on PIT night

B. Number of Households on PIT night

Exhibit C All Project HIC List (sent as an excel file)

B. 2026 Sheltered and Unsheltered PIT Survey Count

Discuss preliminary count estimates to be provided under separate cover.

C. County PIT & HIC Lead Responsibilities.

1. Assist with providing missing HIC information by February 20
2. Assist with providing missing PIT Survey information by February 20

D. Begin Debrief to plan for 2027 PIT

1. Please share questions with the committee you would like to include in a survey to solicit feedback regarding the 2026 PIT Count.
2. Begin preparation of timeline to plan for 2027 PIT.

2026 PIT and HIC Planning Update.

January 26, 2026 is approved PIT count date (“night of”) January 27, 2026 approved for Day of Count.

A. 2026 Surveys

The PIT Committee worked with Simtech Solution to update and approve the 2026 Sheltered and Unsheltered surveys. The Counting Us App includes the final surveys.

The team discussed updates on surveys, with Kristen confirming that Dawn Pittore would compare the mobile app to the paper survey. Matt provided information on the setup key for the Counting Us app, clarifying that it is not case-sensitive and explaining the registration process. As of the meeting, 90 people had registered for the event.

B. HIC Lists.

Pathways MISI has worked with the NorCal CoC to account for all homeless-dedicated beds and programs operated by organizations that need to be included in the 2026 HIC regardless of funding source and including those not currently participating in HMIS.

There are two HIC lists.

- 1) Total Project HIC list
- 2) Emergency Shelter and Transitional Housing List to use for Shelters who will require administration of a Sheltered PIT Survey

For questions about the HIC form and HIC lists please respond at your earliest convenience to Seth Maneja smaneja@pathwaysmisi.org

The team discussed the status of emergency shelter and transitional housing lists, with Seth reporting 85 out of 100 forms submitted and pending responses from several counties including Del Norte, Sierra, Shasta, and Plumas. Kristen Quade confirmed she had reached out to supervisors regarding Environmental Alternatives Family Services, while Michael agreed to schedule a follow-up call with Seth to discuss pending projects. The team emphasized the importance of completing the emergency shelter list accurately, as it needs to be imported into the Counting Us app for the sheltered pit survey, which will take place after the point-in-time count on the 26th.

The team discussed the process of updating shelter lists for the command center, with Matt demonstrating how to filter and export data using the web browser version. Seth agreed to work with Matt's team to provide the updated list, and they decided to continue using the import format for the command center due to its familiarity and the upcoming Wednesday deadline. Kristen Schreder mentioned that the next project would involve a total housing inventory count, including permanent housing, permanent supportive housing, and rapid rehousing, with a focus on accurate unit and bed counts.

The group discussed the inclusion criteria for permanent housing projects in homelessness counts and reviewed the process for the 2026 sheltered point-in-time survey. They addressed the use of the Counting Us app, with Matt offering additional training if needed, and clarified that local discretion is used when determining homelessness status for individuals living in RVs. The conversation ended with a discussion on the nuances of surveying individuals in various living situations, emphasizing the importance of capturing accurate data while accounting for gray areas in homelessness definitions.

C. 2026 Sheltered PIT Survey Count

The list of Emergency Shelter, Transitional Housing projects that will be used for the administration of a Sheltered PIT Survey will be distributed to each county by January 20, 2026 for use with the [County PIT & HIC Lead Responsibilities](#).

PIT and HIC County Leads will oversee the PIT Unsheltered and Sheltered Count for their county.

- 1) **Manage the Unsheltered Count, oversee outreach teams and volunteers to conduct Unsheltered PIT surveys.**
- 2) Add volunteers to the Counting Us App by sharing the Volunteer Registration Portal at <https://norcal.pointintime.info/>
- 3) Provide access to the Simtech Training about use of the Counting Us App and training regarding the responsibilities and roles of volunteers.
<https://pointintime.info/volunteer/norcal-point-in-time-count/norcal-jurisdictional-leads/>
- 4) County Leads have been added as jurisdictional leads in the command center. Leads will need to register an alternate as administrator for your county for the count.
- 5) **County Leads are responsible for the accuracy of the HIC List and Sheltered PIT Count.**
 - a. Review and confirm the two HIC Lists are accurate. Respond to Seth by January 21 with any corrections, additions or deletions.
 - b. Manage the administration of a Sheltered PIT survey using the Counting Us App for each person at each project on the ES & TH HIC List.

Matt demonstrated the Point inTime.info platform, showing how jurisdictional leaders can log in, view

user registration, and manage teams. He explained that users can be assigned to teams and designated as team leaders, with the ability to view known locations and user concentrations. Matt suggested that for large encampments, a pre-count could be conducted to gather information before the official count, potentially saving time on the day of the count.

The team discussed how to input and manage homelessness data using a survey tool and map interface. Matt explained that teams could use the survey tool to collect known locations of homelessness before the official count, with data submitted either through the survey interface or via email to PIT@simtechsolutions.com. The team also reviewed how to create and access print-friendly maps on the jurisdictional lead page, which could include historical point-in-time information, though Matt noted limited data was currently available for non-locations.

The team discussed training materials and survey information, with Matt sharing that instructional videos and FAQs are available on the support page for account administrators and surveyors. Matt demonstrated how committee leads can access and view high-resolution maps by adjusting filters and overlays in the system, though the final maps are being completed offline. Megan inquired about comparing current maps to last year's known locations map, and Matt explained how to access and manipulate the maps to make comparisons.

Matt demonstrated how to manage teams and users in the system, focusing on adding and editing team members. He showed Emily how to create a new team, add users, and export information for tasks like sending emails or taking attendance. Connor was tasked with looking into a joining issue that some users were experiencing. Matt also explained that the count status feature in the app is not perfect and may not reflect all team members, emphasizing the role of team leads in managing attendance and roles.

The meeting discussed the process for managing volunteer-related inquiries and the role of jurisdictional and account leads in cascading responsibilities. Matt explained that individual volunteers should use the help desk (PIT@SimtechSolutions.com) for questions, while jurisdictional leads can provide feedback on guidance clarity to improve processes. Kristen Schreder highlighted the availability of Dawn Pittore and Rachel Alvey from Shasta County as experts for specific questions, with the option to escalate unresolved issues to Simtech. The group agreed to move forward with the agenda after confirming that all necessary information was shared.

		<ul style="list-style-type: none"> Beds for Households of Only Children are designated for households in which everyone is under 18 (unaccompanied children, adolescent parents and their children, adolescent siblings, etc.) 				
		<ul style="list-style-type: none"> If beds are not designated exclusively for a particular type of household, record the beds according to how they were used on the night of the PIT. If the program is not at full capacity on the night of the PIT, pro rate the empty beds based on the distribution of the beds that were occupied. 				
		<ul style="list-style-type: none"> Overflow Beds are available on an ad hoc or temporary basis in response to demand that exceeds planned bed capacity. They can include cots, roll-aways, etc. that are only used when the "regular" beds are full. Record the total number of overflow beds available on the night of the PIT Count. If there is no fixed number, record the number of overflow beds that were occupied. 				
		<ul style="list-style-type: none"> Hotel/Motel Beds are beds located in a hotel or motel that are paid for by a program (shelter, DSS, church, etc.) either because the program has no beds of its own or its beds are full. All hotel/motel beds are considered emergency shelter beds regardless of what program provides them. Only record the number of hotel/motel beds that were in use on the night of the count. 				
		<ul style="list-style-type: none"> Seasonal Beds are available on a planned basis during high-demand times of the year (usually cold-weather months). Seasonal programs should record the dates their beds are available in the Bed Inventory chart (ex. open Dec. 15 to April 15). 				
		<ul style="list-style-type: none"> Beds dedicated to veterans are beds that are reserved for homeless veterans (and their families, if applicable). These beds must be filled by veterans unless there are no homeless veterans within the program's service area. 				
		<ul style="list-style-type: none"> Beds dedicated to youth are beds that are reserved for homeless youth up to age 24. These beds must be filled by youth unless there are no homeless youth within the program's service area. In the Bed Inventory chart, the program must indicate if the dedicated beds are reserved only for youth under age 18, only for youth ages 18-24, or for all youth up to age 24.
